

MERCK

smart up your lab

with **EMSURE**® Inorganics and Solvents
for Classical Analytical Applications

The life science
business of Merck
operates as
MilliporeSigma in
the U.S. and Canada.

Supelco®
Analytical Products

Smart up your lab

EMSURE® products now come with new smart labels for digitalized data and lab filing. That's in addition to their unique packaging, optimal safety equipment, premium quality, and strict compliance to international norms. It's precision made simple – for analytical chemists by analytical chemists. Our experts collaborate with customers like you to enable easier data access, greater safety and convenience, simpler compliance, and reliable results every time.

1

Smart Products

Reliable quality for trusted results

Comprehensive range for quality control

EMSURE® products comprise premium classical inorganics and solvents, optimized for regulated analyses and highly demanding lab applications. They offer the highest quality and unmatched specifications to give you complete control of test conditions and eliminate uncertainties.

- Unmatched batch-to-batch consistency
- Reliable and reproducible results
- Lower analytical costs
- No repeat analyses

2

Smart Handling

Safe and convenient

Unique packaging and safety equipment

For us, packaging is a fundamental aspect of safety, sustainability and reliability. That's why EMSURE® bottles and vessels are designed to maximize safety, convenience and product protection. For containers larger than 10 liters, our special withdrawal systems ensure safe, contamination-free dispensing – till the last drop.

3

Smart Labels

Quick and easy data access

Better data handling with smarter labels

The highlight of our new smart label is a 2D data matrix barcode that contains product data encoded using Global Standard One (GS1) specifications. Now, you can get digitalized, up-to-date product information – with just one touch.

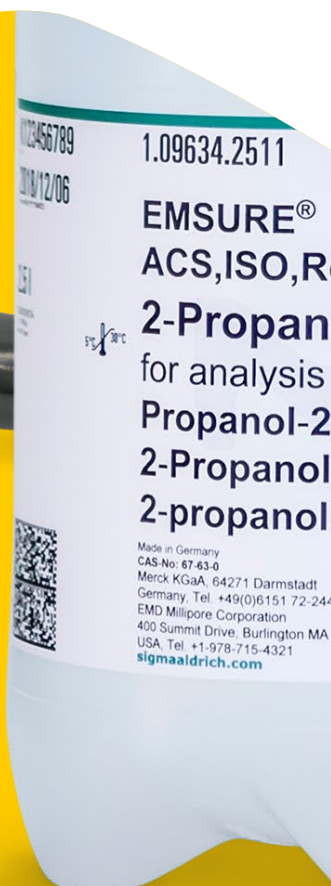

3 smart ways to easy data access – choose what works for you

- **Smartphone and app**
Use your smartphone and our new "My M Safety" app
- **Barcode scanner and ScanNow website**
Connect a standard barcode scanner to your PC or laptop, visit the ScanNow website to access product data and documentation
- **Scan the 2D barcode from your LIMS or ERP system**
Directly insert relevant product data into your application
